About Coalition Marketing

Coalition Marketing believes in the power of putting partnerships first. The founder, Dustin Howes, developed the gift of network marketing over the last 10 years in the affiliate marketing industry.

While researching programs in the industry, Dustin recognized that many businesses create an affiliate program without proper strategic planning and realistic goals. Coalition Marketing created a Quick Launch solution that helps businesses build a custom affiliate program at an affordable price. Once the program is built, Dustin teaches the business how to manage the program through a one of a kind online certification course, Performance Marketing Manager.

Dustin's energy and enthusiasm exudes throughout the online course and every interaction with clients throughout the course.

Affiliate Marketing Industry Stats from 2018:

So your business is doing well...

and you are looking to grow the company. Then a little birdie whispered in your ear "affiliate programs are a great way to bring in additional revenue." So you say "LET'S DO IT!"

Whoa! Not so fast there Speed Racer! Good affiliate programs aren't created overnight; they require proper planning and execution. Coalition Marketing has created a 30 point checklist that you can use to setup your program for success.

Analyze

- Learn what platform your competitors use, and consider if that is the right choice for you. Take demos with at least 3 tracking networks/platforms and weigh your options.
- Check out their application process, see how much they are offering in commissions. You'll need to stay competitive with payouts, so calculate your standard and maximum commission rate.
- Set program growth goals for the next 3, 6, & 12 months

Decide

- Decide the Cost Per Action model will you payout your commissions? Click, lead, or sale.
- What is the standard payout? What is the max payout for premium partners?
- What bonuses will you offer? Activation bonus, incentives for number of actions in a month, etc.
- Will you manage the program in-house or use outsourced program management (OPM)?
- Do you want a private or public program?
 - Pick your network or platform that is appropriate
